

Butterfly Chrysalis Care Instructions

Congrats on bringing home a new chrysalis! Your butterfly should emerge in 2-4 weeks.

Hatching Instructions:

- Remove the chrysalis from the plastic cup and place it in a large container (6" wide).
- Add a twig or paper towel for the butterfly to cling to.
- Once it emerges, avoid touching it for 3+ hours to allow the wings to dry fully.

Releasing Your Butterfly:

- Release the butterfly once its wings are fully inflated and dry.
- Bring it to Magic Wings and release it in the Conservatory.
- Keep it indoors in a large enclosure and feed it sugar water.
